Dear Applicant:

We are currently reviewing your above-referenced application. Our review reveals that the above referenced proposed minor modification construction permit was filed to modify your major change construction permit BMJPTTA-20040504ABL.

Our records also show that the major change construction permit was not licensed and that the permit expired January 24, 2008. Since the major change construction permit has expired it can no longer be modified; therefore, your above referenced minor change application IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh  
Associate Chief
